Prices in PLN, including VAT

The terms used in the Price List should be understood in accordance with the GreenWay terms and conditions of services.

⁽¹⁾ The price of the recharging service shall be calculated as sum of (i) price portion based on kWh rate and (ii) price portion based on minute rate. Details of the price be calculated as the sum of electric energy measurement, are defined in the terms and conditions of services.

⁽²⁾ In case of charging at the charging stations of the GreenWay group in the Slovak Republic (the operator - GreenWay Infrastructure s.r.o.), prices for the multiple recharging services shall apply.

⁽³⁾ The service is available to clients who have completed full registration in order to use the service for an indefinite period. The power is defined by the maximum power of the given charger.

⁽⁴⁾ Applies to clients who have completed registration in order to use the service for indefinite period of time of time.

⁽⁵⁾ Applies to all clients regardless of the recharging option they have chosen. VAT for additional fee doesn't apply.
